

**Possibly the most innovative  
kitchen accessory since  
the soft close drawer?**

**S-BOX™**

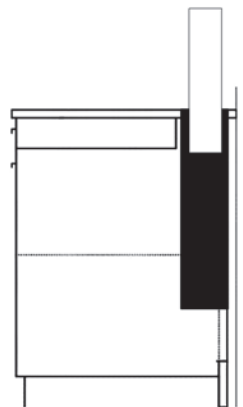

**S-Box™ is a revolutionary new storage concept for the kitchen and home. The S-Box range of 'function' and 'technology' designs, enables useful and everyday items to be hidden from view and presented only when needed with the touch of a finger. No electrics, no gas struts... no hassle!**

Maximising otherwise wasted space towards the rear of the cabinet or within the voids in a kitchen island, the whole S-Box™ range can be easily installed and will add value and innovation to any kitchen design.

With a wide variety of pre-designed uses, all with a Stainless Steel finish as standard, there is an S-Box™ to suit almost every taste and requirement.

**The most innovative kitchen accessory since the soft close drawer? Probably.**

**S-BOX™**
