Intelligent Solutions

 **Hotpoint**

OUR IDEAS. YOUR HOME.

Here at Hotpoint, we recognise that the kitchen is the heart of the home and this is why we design and create appliances that will fit seamlessly into your life.

Beauty, brilliance, technology and style. Browse our collection of stylish cooking, dishwashing, laundry and refrigeration appliances; we've got something to suit every taste, space and vision.

Cooking

With our wide selection of Built-in Ovens featuring two co-ordinated designs, take your pick from the latest ovens built with you in mind.

The range we offer is designed to suit all households and user needs. If you are short on space, *Openspace* is the ideal solution with 20% more capacity than standard single ovens with the same dimensions.

Our *New Style* designs are available in Single and Double Ovens with a choice of functionality and many models include Pyrolytic Self Cleaning.

3-11

Dishwashers

Loaded with features our dishwashing range fit into any kitchen style. We offer free standing, fully integrated and slimline dishwashers to complete the programme.

Our latest fully integrated A rated model offers 14 place settings, 11 wash programmes, with super-quiet noise levels ensuring you won't be disturbed.

When space is an issue you can choose the Slimline 45 cm integrated dishwasher. With 10 place settings and 6 programmes, all your cleaning needs are catered for in the smaller space.

12-13

Cooling

Give your kitchen the ultimate streamlined touch with an integrated Hotpoint fridge or freezer. The wide range of integrated fridges and freezers available from Hotpoint ensure that, whatever your needs, there is a model for you.

Alternatively you can set off your kitchen in style with Hotpoint's award winning *Fridge Drawers* or the iconic *Quadrio* 4 door fridge freezer.

14-18

Laundry

Laundry doesn't need to be a chore with Hotpoint's class-leading washing machines, tumble dryers and washer dryers.

The stylish free standing range includes a 9kg Steam Washing Machine and a 9kg tumble dryer ensuring even the busiest homes are catered for.

The Built-In Washing Machine and Washer Dryer both have Eco Cycles that save from 50% to 70% of the energy used - a big plus on your daily wash.

19-22

Openspace Double Oven / Single Oven Space

13 Cooking Programmes:

Small Space: Fast Cooking, Grill

Main Space: Circulaire Fan

Extra Large Space:

4 Intelligent Programmes: Roast, Bread, Cake, Pizza

6 Standard Programmes: Multi-Cooking, Variable Grill,
Fan Grilling, Low temperature 40°C, 65°C and 90°C

Insulating Divider

Total Electronic Control

2 Individually Controlled Electronic Programmable Timers

Both with Time & Temperature Controls

Triple Glazed Door with Oven Door Lock

Air Flow Cooling Fan and Internal Chimney Venting

Energy Efficiency: **A Rated**

77 Litre Capacity

Finger Tip Resistant Stainless Steel Finish

Art. Nr. HDOE130P (Pyrolytic)

RRP € 830

Min. Installation Dimensions: W 558 x D 547 x H 575 - 593 mm F

20% more space than a standard single oven. The revolutionary design gives you a huge 77 litres capacity with the ability to cook on 4 levels at once.

The brilliance doesn't stop there! You can convert this extra large space into a double oven by simply inserting the insulating divider to create two separate cooking zones; both with their own independent time and temperature controls.

One Oven: Four Cooking Zones

Small Space

The divider allows the use of just the top part of the Oven. There are two functions in the Small Space: Fast Cooking & Grill.

Main Space

The divider allows the use of just the bottom two thirds of the oven as a fan oven.

Double Space

Both spaces can be used at the same time; at two different temperatures with independent programmable timers. The divider is fully insulated so there is no transfer of flavours between compartments.

Extra Large Space

Extra Large Space offers 10 cooking programmes including Hotpoint's 4 'Intelligent Cooking' Functions. It can be used as one extra large space or 4 shelves at once.

Single Ovens

Art. Nr. HSON100PT

RRP € 689

New Style Touch Control Multifunction Oven

10 Cooking Programmes:

- 4 Intelligent Programmes: Roast, Bread, Cake, Pizza
- 6 Standard Programmes: Circulaire Fan, Variable Grill, Fan Grilling, Low temperature 40°C, 65°C and 90°C

Drying Programmes: Cottons, Synthetics & Wool
3 Level "Set and Forget" Sensor Drying
Energy Rating: A

Installation Dimensions: W 600 x D 570 x H 820 - 900 mmF

Key Features Explained...

Fast Clean-Pyrolytic Cycle: Oven heats to over 500° burning off fat / waste leaving a layer of ash which can be wiped clean.

Solarplus Grill: Heats to full temperature after only 15 seconds. The grill mesh is practically self cleaning which saves time and inconvenience.

Fan Grilling: The grill element is used with the circulaire fan circulating heat all around food. Great for browning, crisping and gratin finish. Same results as a rotisserie.

Variable Grill: Half Grill Option providing a solution for small portions with maximum performance.

Combination Microwave: Microwave combined with all the features of a standard grill and fan cooking.

Conventional Programme: Combined heat from top and bottom. Ideal temperature in centre of oven. Great for home baking.

Multi-Cooking: Uniform heat distribution enables cooking of different types of foods on more than one shelf.

Fast Cooking: Combines all heating elements coming on alternatively with the Circulaire fan at full power. Cooks several dishes at once, and fresh food 20% quicker than conventional.

Circulaire Fan: The fan and rear element circulate even heat. Reduces cooking time by 20% and temperature by 10-20° compared to a conventional oven.

Circulaire Roasting: Same as circulaire fan above but allows hot air to be circulated underneath the food. A raised trivet allows fat to fall away from the meat.

Pizza: Combining circulaire fan and bottom heat which guarantees rapid baking of dough or pastry.

Low Temperature 40°C: Reduces defrost times by half and proves dough to perfection.

Low Temperature 65°C: Ideal for plate warming and defrosting.

Low Temperature 90°C: Combining Circulaire heating element and reduced power grill, cooks casseroles to perfection.

Pastries Programme: Guarantees rapid baking of pastry with a golden finish.

Steam Cooking: A fast, healthy & convenient way of sealing valuable vitamins and minerals into your food. No transfer of flavours.

Flame Failure: Flame suppression device that cuts off the gas if the flame goes out.

Residual Heat Indicators: An indicator lights up to tell you the surface of the hob is still hot, even after you have turned off the controls.

Triple Ring Wok Burner: Innovative triple ring optimises the power of gas and allows quick and uniform cooking.

Double Ring Burner: A powerful burner capable of cooking whatever you want quickly! The flame can be regulated independently on each burner (from 0.9 to 5.0kW).

Baby Cycle : Intensive wash designed to cleanse and remove harmful bacteria from crockery and cutlery used to feed babies / young children.

Rapid 27/35: Ultra fast wash to clean lightly soiled items in 27 / 35 minutes.

Eco Wash: Using low energy in the wash cycle for an environmentally friendly wash with great cleaning.

Water Stop / Overflow: Automatically shuts off water to the dishwasher if problems with waterflow occur.

Dual Space: Allows upper basket in the dishwasher to be easily height adjusted, even if fully loaded.

Ice party: White wine or champagne is quickly chilled and a discrete signal lets you know when they are ready.

Fully Frost Free: The circulation of cold air in both the fridge and freezer prevents the build up of ice.

Ice Care: The ice trays are set into the drawer of the freezers giving easy access to ice cubes.

Antibacterial Protection: This is built into the fridge liners inhibiting the growth of harmful bacteria and reducing odours.

Conservation Time: The time in hours food will be conserved in the event of power failure.

Super Freeze: Rapid freezing of fresh foods to preserve their quality.

Super Cool: Lowers temperature of the fridge to rapidly cool new items.

Washing Machine Eco Cycles: Allows for daily cleaning of cotton, linen and synthetics. The fast cycle allows you to freshen up or wash fabrics that are slightly dirty in thirty minutes.

Set and Forget Drying: Sensors monitor the moisture and temperature in the machine to adjust to the level of drying that you choose; iron, hanger or cupboard.

Baby Cycle Washing: Designed to tackle the toughest stains associated with babies and young toddlers.

Delay Start: Allows you to delay start time of wash cycle at the press of a button.

Condenser Dryer: Tumble dryer does not need an external vent. Moisture is collected and stored for easy disposal.

Steam Refresh Cycle: A 20 minute programme to refresh garments.

Steam Hygiene Cycle: Additional period of steam at the end of a normal cycle ensures a deep and thorough antibacterial cleanse.

OUR IDEAS. YOUR HOME.

Need an answer?

If you have a question about any Hotpoint appliance, simply pick up the phone. We can give you information about individual models, ranges and specific features. Our information line is open from 8.30 am to 5 pm Monday to Friday.
