Timber Plate Stack

The Timber Plate Stack is a popular way of storing plates and other crockery in the kitchen. The solid beech top and pillars offer an attractive and sturdy finish and can be configured to suit any style of dish or bowl.

The pillars screw securely into pre-drilled holes on the base allowing for secure storage of plates of any diameter and can be positioned anywhere on the base to suit your storage needs. The trays are pre-cut and contoured to suit Blum TANDEMBOX drawers which provide smooth running action and silent effortless closing with Blumotion.
